Portofolio

SUMMARY

Informatics undergraduate student at the University of Bengkulu with strong interests in UI/UX design, data analysis, and digital technology development. Experienced in designing user interfaces, producing digital content, and managing information systems through academic projects and organizational activities. Skilled in tools such as Figma, Canva, Adobe Illustrator, and basic web development technologies. Actively involved in youth education initiatives related to nutrition awareness and mental health campaigns. Passionate about leveraging technology to support digital education, public health awareness, and data-driven solutions.

TECHNICAL SKILLS

- **Design & UI/UX** | *Figma, Canva, Adobe Illustrator, UI Prototyping, Wireframing*
- **Programming & Web** | *HTML, CSS, Basic Python*
- **Data & Digital Tools** | *Data Analysis (Basic), MySQL Workbench, Digital Content Management*
- **Soft Skills** | *Leadership, Communication, Collaboration, Problem Solving*

PROJECTS

KibokGO – UNIB Shortest Path | JavaScript, Leaflet.js, OpenStreetMap **May 2026**

- Led a student team in developing the HydroGreen PKM-PM proposal for an IoT-based hydroponic system.
- Designed the system concept and planned IoT architecture to address limited agricultural land and improve sustainable food production.
- Passed the internal PKM proposal selection process at Universitas Bengkulu.

SpinSight – Critical Reasoning & Argumentation Platform | Web Development, AI **Oct 2026**

- Developed a web platform for practicing critical reasoning and oral argumentation through AI-assisted learning.
- Implemented AI-powered argument analysis, scoring, and personalized feedback for student responses.
- Designed interactive debate arenas with structured argumentation and classroom discussion features.
- Integrated teacher dashboards, topic management, and student progress tracking to support educational assessment.

SIGNARY – Inclusive Communication Platform | AI, Computer Vision, Web Development **Sep 2026**

- Developed an inclusive web platform featuring a BISINDO dictionary, community, and discussion forum.
- Implemented speech-to-text and sign-to-text functionalities to support accessible communication.
- Integrated AI and computer vision technologies for sign language recognition and translation.
- Designed digital learning and communication features to promote accessibility and social inclusion.

KeraHub – Circular Economy Platform | Web Development, Traceability, Marketplace **Sep 2026**

- Developed a digital platform connecting salon owners, logistics providers, processing facilities, and farmers.
- Designed a digital scheduling system for waste collection and logistics coordination.
- Integrated traceability and marketplace features to support the distribution of processed hair waste products.
- Incorporated digital incentive mechanisms to encourage participation in a circular economy ecosystem.

PanganDali – Food Distribution Intelligence Platform | FastAPI, React.js, PostgreSQL, AI **Jul 2026**

- Developed a B2B2G platform connecting farmers, distributors, logistics partners, and local government for food distribution coordination.
- Integrated WhatsApp Business API for harvest reporting and automated data acquisition.
- Implemented AI-assisted supply forecasting, harvest data extraction, and smart backhaul matching.
- Designed an Early Warning System dashboard to support regional food supply monitoring and inflation control.

Agrisave – Personal Finance Data Encryption | Python, AES-CBC **Jun 2026**

- Implemented the Advanced Encryption Standard (AES) algorithm using Cipher Block Chaining (CBC) mode.
- Developed a Python-based encryption system to protect personal financial records.
- Applied cryptographic techniques to enhance data confidentiality and secure financial information.

Spider-Man: GF of Chaos - 2D Game Development | *Greenfoot (Java-based framework)* **May 2025**

- Designed game environment including background scenes and visual level layouts
- Created character visual assets and prepared sprite designs used in gameplay
- Integrated multiple game levels to support gameplay progression
- Collaborated in the development process using object-oriented programming concepts within the Greenfoot environment

Budgetku - Personal Finance Management Web Application | *PHP, MySQL, HTML, CSS* **Oct 2025**

- Developed a web-based application for tracking personal income and expenses
- Implemented CRUD functionality to manage financial records using PHP and MySQL database
- Designed responsive user interface using HTML, CSS, and JavaScript
- Enabled users to monitor financial activity and manage personal budgeting effectively

UI Design & Web Prototype BibokSalad | *Figma* **Sep 2024**

- Designed a responsive website interface prototype using Figma for a multimedia systems project
- Developed wireframes and interface layouts focusing on usability and user experience
- Applied user-centered design principles to improve navigation and visual hierarchy

BINAR (Bintangku Bersinar) – Youth Health Education Initiative | *Canva* **Jan 2024**

- Developed digital educational content related to adolescent health and nutrition awareness
- Designed infographic campaigns distributed through social media platforms
- Promoted positive lifestyle awareness among youth audiences

EXPERIENCE

Peer Facilitator – Youth Health & Development Programs **Jan 2024 - Present**
| Kemendukbangga/BKKBN
Served as a peer facilitator in youth education initiatives under BKKBN, including the *Modul Tentang Kita Upgrade* program focusing on adolescent mental health and self-development and the *Modul Edukasi dan Aksi Remaja untuk Gizi dan Pencegahan Anemia* program addressing nutrition awareness and anemia prevention. Facilitated interactive peer-learning sessions and discussions to promote healthy lifestyles and improve adolescent health awareness at the district and city levels in Bengkulu Province.

Bank Indonesia Scholarship Awardee (GenBI) **Jan - Dec 2026**
| Bank Indonesia
Assisting the lecturer in conducting practical sessions for the Data Structures and Algorithms course. Supporting students in understanding fundamental concepts such as algorithm design, data structures implementation, and problem-solving techniques. Also responsible for guiding coding exercises, helping evaluate assignments, and facilitating discussions during lab sessions.

Teaching Assistant – Database Systems Practicum **Aug - Dec 2026**
| Bachelor of Informatics, Universitas Bengkulu
Assisted lecturers in conducting practical sessions for the Database Systems course. Guided students in understanding database concepts, relational database design, SQL queries, and database implementation, while supporting assignment completion and troubleshooting to strengthen students' understanding of database management systems.

Teaching Assistant – Data Structures and Algorithms Practicum **Jan - June 2026**
| Bachelor of Informatics, Universitas Bengkulu
Assisting the lecturer in conducting practical sessions for the Data Structures and Algorithms course. Supporting students in understanding fundamental concepts such as algorithm design, data structures implementation, and problem-solving techniques. Also responsible for guiding coding exercises, helping evaluate assignments, and facilitating discussions during lab sessions.

ORGANIZATION EXPERIENCE

Generasi Baru Indonesia (GenBI) – Komisariat Universitas Bengkulu

- **Vice Chairman** **2026 – Present**

Supporting organizational leadership, coordinating internal activities, and overseeing program implementation to strengthen member engagement and organizational effectiveness.

- **Education and Culture Division Staff** **2025**

Contributed to educational, leadership, and cultural initiatives within the Bank Indonesia scholarship community. Collaborated with team members to organize youth development programs, support community engagement activities, and promote social awareness through educational outreach initiatives.

Himpunan Mahasiswa Informatika Universitas Bengkulu (HIMATIF)

- **Secretary General** **2026 – Present**

Responsible for organizational administration, coordinating correspondence and documentation, and facilitating organizational planning, meetings, work programs, and institutional coordination to ensure effective organizational management.

- **Public Relations Staff (Humas)** **2025 – 2026**

Responsible for managing organizational communications, coordinating information dissemination, promoting activities and work programs, and maintaining relationships with internal and external stakeholders to support effective public relations.

Forum Generasi Berencana Provinsi Bengkulu (GenRe)

- **Secretary of Data and Information Division** **2025 - 2026**

Managed organizational data and information by compiling and organizing reports collected from districts and cities across Bengkulu Province. Designed informational flyers and supported the management of the GenRe website to improve digital communication and public outreach.

- **Secretary of Advocacy and Partnership** **2026 - Present**

Contributed to advocacy initiatives and partnership development by supporting collaboration programs and strengthening relationships with external stakeholders to promote youth development and public awareness campaigns.

Engineering Research Community (ERCOM)

- **Communication and Information Division Member** **2025 - 2026**

Supported organizational communication by designing promotional flyers and managing social media content to increase engagement and visibility of ERCOM programs and activities.

- **Member – Interdisciplinary Research and Technology Development Division (RIPI)** **2026 - Present**

Participated in collaborative research initiatives focused on interdisciplinary technology development and innovation within the research community.

EDUCATION

Bachelor of Informatics Engineering **2024 – Present**
| Universitas Bengkulu
GPA: 3.86 / 4.00
Academic Focus: Data Analysis and UI/UX Design

ACHIEVEMENTS

1st Place – Business Plan International Competition AGATIS 2026 – HIMASIF, Universitas Bengkulu | 2026
Awarded 1st Place in the Business Plan International Competition at AGATIS 2026 (The Anniversary and Gathering of Information Systems), organized by the Information Systems Student Association (HIMASIF).

2nd Place – International IT Essay Competition RAFATECH 2026 (Team Viresta) | 2026
Awarded 2nd Place in the International IT Essay Competition at RAFATECH 2026 as a member of Team Viresta.

1st Best Team – SDGs Future Leaders 2026 – Astra Honda | 2026
Awarded 1st Best Team at the regional level in the SDGs Future Leaders 2026 program organized by Astra Honda; served as Team Leader, coordinating team strategy, project development, and presentation.

1st Place – Popular Article Competition, Bank Indonesia (Sumatra Region) | 2026
Won 1st Place in a national-scale popular article competition representing the Sumatra region, organized by Bank Indonesia, demonstrating strong writing skills and the ability to present insightful ideas through engaging articles.

2nd Place – National Inovatera Competition (General Category) – NEON | 2026
Awarded 2nd Place as part of a team in the General Category of the National Inovatera Competition, organized by National ERCOM Competition (NEON) 2026.

3rd Place – Essay Competition AGATIS 2026 – HIMASIF, Universitas Bengkulu | 2026
Awarded 3rd Place in the Essay Competition at AGATIS 2026, organized by the Information Systems Student Association (HIMASIF).

3rd Honorable Mention – Essay Competition, Instinct X – Universitas Riau | 2026
Received 3rd Honorable Mention in the Essay Competition organized by Instinct X, Faculty of Economics and Business, Universitas Riau, with the theme "Optimizing the Role of Youth in Digital Economic Transformation Towards a Sustainable Future.

Semifinalist – DIGDAYA x Hackathon – Bank Indonesia | 2026
Advanced to the semifinal round of the national DIGDAYA x Hackathon competition, competing among 240 teams from across Indonesia.

Graduate – Samsung Innovation Campus | 2026
Successfully completed the Samsung Innovation Campus 2026 program, gaining knowledge and practical experience in technology and digital innovation.

Bank Indonesia Scholarship Awardee (GenBI) – Bank Indonesia | 2026
Selected as a scholarship recipient based on academic excellence, leadership potential, and community engagement.

Participant – International Web Development Competition, RAFATECH | 2026
Participated in an international web development competition at RAFATECH 2026, demonstrating web development skills through a competitive platform.

Participant – Infographic Competition, Brawijaya National Youth Competition | 2026
Participated in the infographic competition at Brawijaya National Youth Competition 2026, presenting information and ideas through visual communication and creative infographic design.

Participant – Essay Competition, Pekan Ilmiah Nasional 11th (PIN 11th) – Universitas Lampung | 2026
Participated in a national-level essay competition organized by Universitas Lampung, exploring ideas on innovation and youth development.

3rd Place – Infographic Design Competition – Kemendukbangga/BKKBN | 2025
Awarded 3rd Place for designing an educational infographic addressing adolescent reproductive health and social awareness issues.

Top 12 Finalist – GenRe Ambassador Bengkulu Province – Kemendukbangga/BKKBN | 2024
Selected as one of the top 12 provincial finalists in the GenRe Ambassador program promoting youth health education and leadership.
